City slices 2 mills from budget

By JIM JONES

Responding to what they said was the will of the people, Belle Glade City Commissioners drastically cut their budget Tuesday, Sept. 29, during a morning workshop session at City Hall.

Commissioners agreed to reduce the proposed millage from 8.6 to 6.63 mills, a savings to taxpayers of approximately \$200,000.

200,000.
The cuts closely followed sug-seted adjustments contained in memorandum prepared by fayor Thomas L. Altman Mon-

In his memorandum, Altman called the 13 percent figure "in line with inflation indexes the City experienced this past year." Tuesday's cuts did not come without much agonizing by commissioners over the two and one-half hour meeting. "You see what I mean by drastic" 'Altman asked at one point during the deliberations. At the outset of the meeting Tuesday, Commissioner Charles D. Goodlett expressed his feelings about a public hearing on the budget Sept. 22.

PAHOKEE - The city council unanimously approved a motion by chairman George Rashley Monday authorizing the city attorney to begin the procedure and research necessary to bring the mayor before the council in a removal hearing.

Rashley, who waited until many individuals who attended a public hearing on the millage rate earlier in the evening had departed, informed the council and about 12 citizens that he had called Mayor Noma Nexman several days earlier and had given him a chance to resign by Monday.

When he received no response, he said he had "no alternative but to bring it up."

"I just ignored the request," said Norman Tuesday, Norman, according to members of the council, had not tended to city business or attended a gouncil meeting in the past two weeks, two weeks marked by the struggle over the city budget.

The mayor is responsible for operating the city on a day to day basis, according to the city charter. He may be charged with malfeasance and non-feasance of duty. After a hearing before the council be could be removed from office, according to section 48.

"I don't know. I wasn't there," said Norman. I've been sick the past two weeks."

by the Belle Glade Lions Club. Lions Pres. Billy Schoenfeld introduced speaker Buddy Faulkner and told how he had benefited from attending a Dale Carnegie Course.
Faulkner said the course will be held in mid-October in Belle Glade. The price is \$5.50 for the 14-week course. Classes are held one evening a week. Enrollment

information may be obtained by calling Glades Roofing at 996-5254.

Dale Carnegie classes are not new to the Glades area, Faulkner said, noting that U. S. Sugar Corp., A. Duda and Sons, and South Bay Growers are some of the companies which have taken advantage of the classes in the nast.

past.
"The Dale Carnegie program of-fered in Belle Glade is the same as the one offered around the world. The only difference is that local

people are involved," Faulkner

said.

The course concentrates on improving memory, effective communications, enthusias mostive outlook, human relations, and self confidence.

The program develops latent leadership, sales skills, and attitudes. Ninety percent of a person's abilities are undeveloped, he said.

If the course is able to bring out 4 or 5 percent of a person's latent

talent, the overall improvement is actually 20 percent- a noticeable improvement, said Faulkner. Faulkner said that in most businesses, memory- the ability to remember names and faces- is an asset. "When we know peoples' names, it causes them to trust us more," he said.

A number of systems can be learned for improving memory. Using the 'pegging' system, Faulkner demonstrated his recall of 15 objects called out by persons in the audience and the order

in which they had been listed. Faulkner said the system can be learned in one hour.

Faulkner emphasized the importance of having a positive attitude and enthusiasm in their daily life.

Enthusiasm is a genuine zest or vitality which has to come from within, he said.

Excessive worry is a waste of energy. "Ninety percent of the things we worry about never happen," he said.

Faulkner said that a person can alter the course of his life by changing his attitude.

"We usually have a doubtful attitude about the things we are not familiar with," he said, sumpassing his point by driving a straw through a potato.

The most important thing anyone can get from a Dale Carnegie Course is self confidence, he said. Too many times people avoid opportunities becuse they lack self confidence.

South Bay plans workhop on license fee hikes

SOUTH BAY-The South Bay City Commission decided to forego the idea of passing an ordinance to raise the city's occupational license fees when angry businessmen crammed City Hall Tuesday night to protest the proposed fee hikes.

During the special meeting, Commissioner Wilbur "Ray" Sullivan moved that the city throw out the whole ordinance and start out all over again because of the the unpopularity of the proposed ordinance. The ordinance was presented to the Commission on Sept. 1 by City Attorney James Gann.

The Commission had instructed Gann to update the ordinance because it had been some years since any adjustments had been made on the city occupational licenses.

justments had been made on the city occupational licenses.
Former Commissioner O'Neal Walker suggested the Commission look at a two point plan he proposed.
Walker said it was very obvious the city was "hunting for money" when he looked at the new format for charging for occupational licenses.
Walker said some of the fees had increased 10 times.
"I recommend the city live within its income and the salaries of the Commissioners be looked into. For years the Commissioners served without being paid," said Walker.
"The \$14,000 paid the Commissioners could be used by the city," he added.
Mayor Tanner said the section on drink machines had been thrown completely out, which was a major concern of many of the business persons attending the meeting.

concern of many of the business persons accessed meeting.

Tamer also said the Commission for the past two years had worked diligently with the City Manager to keep the cost of operating the city down and was proud of their efforts.

Tamer said the City work force was at its lowest. Several citizens complained of the size of the police department and Tamer said, "for a city the size of South Bay, the city force is actually understaffed."

The proposed ordinance suggested a charge for general merchant license would be \$50 for merchante with less than \$3,600 worth of stock on hand, \$100 for

ABCs of reapportionment

The issue of reapportionment is probably one of the most critical for the State of Florida for one very simple reason: over the past 30 years, the population in this state has doubled, making it the eighth largest in the

the eighth in gest and the nation.

The United States Census Bureau points out that. Florida is one of three states which gained over two million people from 1970 to 1979, and among five that experienced more than a 30 and the state of the

population during that nine year period.
THE 1950'S:
PRELUDE TO
CHANGE

Prior to and during the 1950's, reapportionment was governed by the State Constitution of 1885. This archaic document allowed the legislature to reapportion itself, but because the state Constitution itself, but because the state Constitution decreed that no county could have more than one state Senator, a mere 17.2 percent of the population from rural districts

elected a majority of the state Senate. A comprable situation existed in the state House.

THe 1885 Constitution provided that each of the 57 counties must have their own state representative, and the five largest counties were allotted three representatives each. Thus 17.5 percent of the population, again from rural areas, controlled the majority of the than, 95 seat House.

Another peculiar provision of the 1885 Constitution required mid-decade

reapportionment. A 1955 study commission appointed by Governor Leroy Collins recommended a population inditing designed to reduce the disparity between the disparity between the distribution of population and the distribution of representation. Although rejected by the rural-dominated legislature in a special session in 1956, the population indexing formula was later cited by the United States Supreme Court in the [Centimed on Page 5] reapportionment, A 1955 study commission ap-

Two weeks ago, Leon County Circuit Judge John Rudd ruled that the legislature was within its rights in adopting the budget amendment.

Rudd's ruling states that "the Legislature has set prohibited speech. It has come to the decision that educational funds are to be used to educate students, not to provide recognition for, assistance to, or meeting facilities for groups who advocate sexual relations."

Rudd said that the First Amendment does not "Guarantee the right to communicate one's views at all times at all times and places or in any manner that may be desired."

What's causing budget woes

By JEFF BROWN

Pahokee is having trouble.

The city council has found it very difficult to simultaneously operate the community and balance the budget. Either revenues are increased, or some services are lost, the council members are saying.

Revenues, of course, care increased by raising taxes.

It's the same story being heard in many town halls these days. But in Pahokee, land owners find their taxes rising an average of 65 per cent. Some have reported tax increases as high as 200 per cents. Why are property taxes in Pahokee in this era of tax cuts and reduced spending at all levels of government? What factors have converged to create this difficult situation?

What is causing Pahokee's problems?

Inflation can always be blamed

blems?
Inflation can always be blamed for part of the problem. But the taxes are going up 65 percent, not 12, 13, 14 or even 18 per cent.
What is responsible for the bulk of the increase?

A combination of elements, including an increase in the gross taxable value of the property in Pahokee, and a decrease in the tax base, has pushed up the value of the mill, the rate property is

If an individual owns land in Pahokee assessed at \$85,000, the city taxes he or she must pay on that land is \$422.50 per year.

Enter the county property appraiser, who appraises the property 65 per cent higher. This brings, the total value of the property to \$107.250. The taxes paid on that property now total \$897.13.

This is quite a leap, and many communities have rolled back, or decreased, their millage rates as the gross taxable value of property in their districts rose.

Pahokee has not rolled back. It cannot afford to if it intends to provide the services its citizens expect from their government. Homestead exemptions, discussed later, have lowered the tax base too low for a roll back, council members say.

The increased gross taxable value of the area will result in only \$11,000 ome in revenues at the 6.5 mill rate, they say.

They also told citizens the extra \$110,000 will be eaten up by street repairs, salary increases.

How can conservation serve the best interests of both FPL and its customers?

Is conservation really necessary? Yes. We know that many of our customers have been working hard to conserve electricity and it's important

conserve electricity and its important to continue with this effort for three main reasons: First, it will help you gain control over your use of electricity. And a kilowatt hour not used is one you don't

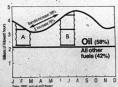

subvatt nour not used is one you out to pay for.

Second, it reduces our dependence on oil, which is both expensive and vulnerable to interruption. If customers use less electricity, we need less oil to generate part of that electricity.

Third, it can help limit the need to build cost he we prepare plants.

build costly new generating plants.

I'm already conserving electricity, but my bill is still going up. Why? Mainly because of things neither you nor we can control. Like the cost of OPEC fuel oil, inflation, weather ex-tremes, and unexpected mechanical

problems at some of our plants. Where problems at some of our plants. where we can exercise control, we do it. For ex-ample, before we use oil, we use all our other less-costly generating sources-nuclear, natural gas, and coal-generated power from other utilities brought into the state by transmission lines.

If we use less electricity, won't FPL just raise our rates? No. We're adding more than 100,000 new customers a year, and the revenues from these cusa year, and the revenues from tiese cus-tomers help offset any revenue reductions which may be due to conservation by existing customers. Inflation and fuel prices will remain the major factors in higher costs for customers.

What is FPL doing to conserve What is FPL doing to conserve fuel? Many things, ranging from supporting research into future energy sources such as solar, to making our plants even more efficient. Here are just three examples:

Newly-designed burners in many units use less fuel and will save over 300,000 barrels of oil this year. The purchase of coal-generated power will save nearly 2,000,000 barrels of oil this year. Our pueled replants produce electricity at a

nuclear plants produce electricity at a much lower cost than do conventional plants, and their fuel costs are much lower. Since nuclear operations began in 1972, our three nuclear units have aswed the equivalent of over one hun-dred and thirty million barrels of fuel oil. That's about 1.6 billion dollars in fuel costs our customers did not have to pay.

Will FPL help me conserve? Ab-Will FPL help me conserve? Assolutely. FPL offers home and business enemy audits, the Watt-Wise Living wprogram for new home construction, and several other programs to help you conserve. And many new programs are planned for the coming years as part of FPLs "Enemy Management Plan for the "80s", in addition, we're continually environ our exigence you stronger you stronger so conservation suggiving our customers conservation sug-gestions in folders and other forms of

Rev. McGahey leads tour of Israel

BELLE GLADE-Joe Ed and Dotsy McGahey returned Oct. 23 from a 12 day teaching four of Israel. They led a group of 20 persons, including four local residents, Mrs. Frances Murphy, Mrs. Carolyn Priest, Mrs. Mickey Harris and Miss Tereass Sellers. Others in the group were from Orlando, Largo and California. Rev. McGahey, pastor of the United Methodist. Church of Belle Glade, has made eight trips to Israel and this is the sixth tour that he has directed.

"One of the highlights of the trip," said Rev. McGahey, "was having Herbert Priest, Jr. (son of Carolyn Priest, J join the group in Jerusalem for three days." "Herbert is now living in Israel on a Kibbutz." he said.

Catour, trees, just the group in Israel on a Kibbutz.

The titnerary of the trip included spending nights on the Dead Sas. the Mediterranean Sea and the Sea of Gaillies. Five nights were spent on top of the Mount of Olives overlooking the old city of Jerusalem.

Rev. McGahey said, "Each morning we could walk out of our 'hotel and look down on 4,000 years of history, beginning with the time of Abraham. If one is only somewhat aware of the Spirtual heritage of that city of cities, it does something to you."

As the group traveled and stopped at various Biblical and historical places, there was teaching and sometimes a worship service. "There is something very special about teaching God's word at the various places where the events of the Bible took place," asid McGahey. "Each time I go with a group of people, I get a new trill out of helping people discover the reality of Biblical events."

"When one sees the varied terrain of the Bible lands and then hears the Biblical events that happened in those places, they just become more real. A teaching tour to Israel can greatly increase one's understanding of Biblical events and of Biblical prophecy." Rev. McGahey commented.

Two other special events of the trip were a Baptism service in the Lordan Bible and the Carbon State of the Carbon State

Two other special events of the trip were a Baptism rvice in the Jordan River and a Communion and raise service in the Upper Room.

Rev. McGahey leads tour of Israel

BELLE GLADE-Joe Ed and Dotsy McGahey returned Oct. 23 from a 12 day teaching tour of Israel. They led a group of 20 persons, including four local residents, Mrs. Frances Murphy, Mrs. Carolyn Priest, Mrs. Mickey Harris and Miss Tereasa Sellers. Others in the group were from Orlando, Largo and California. Rev. McGahey, pastor of the United Methodist Church of Belle Glade, has made eight trips to Israel and this is the sixth tour that he has directed.

"One of the highlights of the trip," said Rev. McGahey, "was having Herbert Priest, Jr. (son of Carolyn Priest, J join the group in Jerusalem for three days." "Herbert is now living in Israel on a Kibbutz." he said.

The itinerary of the trip included spending nights on the Dead Sea, the Mediterranean Sea and the Sea of Gailliee. Five nights-were spent on top of the Mount of Olives overlooking the old city of Jerusalem.

Rev. McGahey said. "Esch morning we could walk out of our hotel and look down on 4,000 years of history, beginning with the time of Abraham. If one is only somewhat aware of the Spiritual heritage of that city of cities, it does something to you."

As the group traveled and stopped at various Biblical and historical places, there was teaching and sometimes a worship service. "There is something very special about teaching God's word at the various places where the events of the Bible took place," said McGahey. "Each time Ig owith a group of people, I get a new thrill out of helping people discover the reality of Biblical events."

"When one sees the varied terrain of the Bible lands and then hears the Biblical events that happened in those places, they just become more real. A teaching tour to Israel can greatly increase one's understanding of Biblical events and of Biblical prophecy," Rev. McGahey commented.

McGahey commented.

Two other special events of the trip were a Baptism service in the Jordan River and a Communion and Praise service in the Upper Room.

District Title I meeting at PBJC--Glades

BELLE GLADE -There will be a Title I District Advisory Council meeting at Palm Beach Junior College Glades Campus, Thursday, Oct. 15, at 10 a.m.

All parents and in-terested residents are in-vited and welcome to at-

tend. The project planning process, district wide elementary level testing and parliamentary pro-cedures will be discussed. For further information call Grégory C. Belli, parental involvement coordinator, at 684-5000 Fxt. 5197.

The Rev. Joe Ed McGahey, pastor of the United Methodist Church recently led a tour group through Israel. Among the group were local residents, Mrs. Dotsy McGahey, the wife

of Rev. McGahey, Mrs. Frank Murphy, Mrs. Carolyn Priest, Mrs. Mickey Harris and Mis Carolyn Priest, Teresa Sellers.

DR. DAVID T.

Church attendance is down in the Glades. This summer was an all time low (in the last 20 years) for most of the churches around Belle Glade.

According to reports that churches in the same districts are experiencing the same thing. This seems a contradiction because a recent poll by Dr. George Gallup, Jr., reported that the ordained ministry is the most respected in the most respected profession. Perhaps people may rate the clergy high but they are not responding to the message, yet this decline of attendance is consistent with the increase of crime. The response of church people to the acceleration of the crime rate seems to be unconcern and indifference. Many people are wanting to leave the Glades are aither for weekends or to relocate.

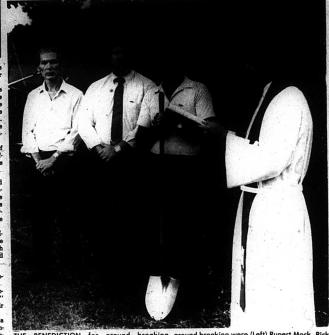

In a telephone survey of churches it was learned that most churches have showed decreases in attendance in church and in Sunday School. Apathy seems to be a wide spread disease. Rather than Christians looking to God and the church for help, they are trying to run away from problems and trying to escape from them by "sleeping in?" as much as possible. Some people are trying to put the blame on conditions beyond their control. In time to tragedy. The children of Israel in Old. Teetament would search their souls and try to determine why God had allowed it to happen.

The"new Israel" or the church is trying more programs and more pressure on people.

The messages from the pupit are not drawing people into the church. Whether people are "sleeping in" or attending the Electronic Church or watch their favorite prescher on television is not known.

or attending the Electronic Church or watch their twortic preader on television is not known. Most families have someone who is suffering from a mental, physical or marital problem. The com-munities are suffering from crime, violence and van-dalism. Drinking and drug abuse is on the upward sw-ing. People are withdrawing from religious services where they could find help and encouragement. Peo-ple in churches are saying spathy is one of the biggest problems. Church members are not seeking help where it is most available and from those the people most respect.

Assuming you care for those near and dear to you, you will want to encourage them to attend a church of yyour choice. Do it this week. Time passes by and we don't glways have all the time we think we have. Let all Christians gather in churches for World Communion Sunday and beaunited in Christ.

BELLE GLADE - The Everglades Presbyterian Church will participate in one of the oldest accraments of the Christian Church on Sunday, Oct. 4. World Community of the Christian Church on Sunday, Oct. 4. World Community of the Christian Church and the Christians in the Lord's Supper Church said this is an annual event in which Christians igning in a special sermon the Lord's Supper Dr. Evens, and the inter-relationship in living and dynamics in the sermon will be based on "There is one body, and one Spirit, even as ye are called in one hope of your calling; One Lord, one faith, one baptism, one God and Father of all, who is above all, one through all, and in you all." Epheisans 44-6.

Dr. Evens and the reason for World Communion Day is to encourage all people to lay aside ill feelings, prejudice and disparagement of others. "At the same time we are called on to be concerned and willing to act positively toward the powerty of another and be open to accept one's own powerty of spritt", said Evens.

George Laird Hunt, editor of the Presbyterian Outlook says, "The double thrust of scripture for World Communion Sunday is this, " we live for others because Christ lives for us, but we must die for others, die through humiliation of asking forgiveness, because Christ died for us. Living and dying, the people who gather with us, in sfellowable inhindered by space and time, belong to the Lord." "World Communion Sunday is a day to forgive and join with our sameness in Christ at His table for stength for today's living and dying", said Evens.

The service is open to the public.

Davidson discusses 'Plan of Salvation'

BELLE GLADE- Mrs. Eileen Davidson of Child Evangelism Fellowship, Inc., presided during the Training Union Hour held Sunday, Sept. 27, at the St. John First Baptist Church.

More than 75 persons attended the program and listened to Mrs. Davidson explain the "Plan of Salvation" through songs; a missionary story

on the life of Ami Carmichael and the life of Daniel and King Nebuchanezzar.
Mrs. Davidson of Loxahatchee is a native of Pennsylvania. She received her training in Child Evangelism Fellowship in the state of California and is a veteran with 17 years of experience. She is mar-ried to Mr. John T. Davidson and they are the the parents of two children.

Adams Crusade to be in town this weekend

BELLE GLADE - The First Baptist Church of Belle Glade will sponsor the Moody Adams Crusade at the church Oct. 2 through Oct. 4. Evangelist Moody Allen, who has travelled extensively around the world in attempts to bring Christianity to non-believers will be speaking in First Baptist Church gym each night, beginning at 7:30 p.m.

On Friday, Oct. 2, he will lecture on "Armaged-don: The Coming don: The Coming Holocast" and on Satur-day, Oct. 3 he will give a

seromon on "Witchcraft, Cults, Demons and Deliverance". On Sunday, Oct. 4, Evangelist Allen will give the last sermon entitled, "New Signs of the Second Coming." That sermon will be delivered at 8-p.m.

In addition to sermons by Evangelist Allen, Bill Murray, the former ex-ecutive of the American Atheist Organization will share his testimony and speak at the Moody Allen Crusade on Saturday

night.

Murray is best known along with his mother.

The Moody Allen Crusade has drawn over four million and he has had over 2,000 speaking supersements in the last two years. Among his engagements have been 1,000 college and high school assemblies.
He has written 24 books and his latest was released April of 1981, entitled "Space Travel in Bible Prophecy".
The public is invited to attend and all seats are free.

EVERGLADES PRESBYTERIAN CHURCH

Church attendance is down in the Glades. This summer was an all time low (in the last 20 years) for most of the churches around Belle Glade. According to reports that churches in the same districts are experiencing the same thing. This seems a contradiction because a recent poll by Dr. George Gallup, Jr., reported that the ordained ministry is the most respected in the most respected profession. Perhaps people may rate the clergy high but they are not responding to the message, yet this decline of attendance is consistent with the increase of crime. The response of church people to the acceleration of the crime rate seems to be unconcern and indifference. Many people are wanting to leave the Glades area either for weekends or to relocate.

In a telephone survey of churches it was learned that most churches have showed decreases in atten-tance in church and in Sunday School. Apathy seems viance in church and in Sunday School. Apathy seems to be a wide spread disease. Rather than Christians looking to God and the church for help, they are try-ing to run away from problems and trying to escape from them by "sleeping in" as much as possible. Some people are trying to put the blame on condi-tions beyond their control. In time to tragedy. The children of Israel in Old Testament would search

The "new Israel" or the church is trying more programs and more pressure on people.

The messages from the pulpit are not drawing people into the church. Whether people are "deeping in" or attending the Electronic Church or watch their favorite prescher on television is not known.

Assuming you care for those near and dear to you, you will want to encourage them to attend a church of your choice. Do it this week. Time passes by and we don't glavays have all the time we think we have.

BELLE GLADE - The Everglades Presbyterian Church will participate in one of the oldest acraments of the Christian Church on Sunday, Oct. 4. World Communion will be celebrated by Chris-tians throughout the world. Dr. David T. Evans, pastor of Everglades Presbyterian Church said this is an annual event in which Christians join in a world-wide celebration, the Lord's Supper.

Prebtyteran Caure sait that is a manual event which Christians join in a world-wide celebration, the Lord's Supper.

Dr. Evans will emphasize in a special sermon the oneses and the inter-relationship in living and dying of Christian in Chased on "There is one body. Hit one Spirit, even as ye are called in one hope of your calling; One Lord, one fath, one baptism, one God and Father of all, who is above all, one through all, and in you all." Ephelsans 4:46.

Dr. Evans said the reason for World Communion Day is to encourage all people to lay aside ill feelings, prejudice and dispargement of others. "At the same time we are called on to be concerned and willing to act positively toward the poyerty of another and be open to accept one's own poverty of apirit", said Evans.

Council retains millage rate

per cent Increases for city employees, accepting to the course if members.

Randal Mila. Pahokee resident who attended a public hearing before the budget was yoted on, disagreed with the figures the council put forward.

"Things are a little bit different than has been indicated," Mills said. "The actual figure for salaries, excluding the city manager, is closer to 26 per cent higher than 10."

Mills, using nine months worth of the city's 1980-1981 financial statements, projected what the city will have spent at the end of the 1980-1981 financial statements, projected what the city will have spent at the end of the 1980-1981 financial year if it continues spending at the same rate. Pahokee will have. spent 11,046,000 of the \$1,149,846 budgeted, he said.
"Do you know of anything put in (the 1981-82 budget) that you have no intentions of spending" asked Mills.
"No, I doa't," replied William E. McKinstry, councilman.
"We're not a bunch of fortune

"This here but it is taken care of add they are with the bear bones."

"Who's to say we didn't spend a lot more in the final three months (than in the earlier part of the pearly" asked Betty McCoy, city sleet.

C.R. Martin of Palm Boulevard told the council that the black community lives on the "lousiest streets in town. And we're still paying increased taxes."

"I sayee with you, go ahead," replied Rashley.

"Are we going to get some consideration on that?"

"If I have anything to do with the them (streets to be improved," responded Rashley.

"Now I've heard that three times before," said Martin.

"I'li see that it's taken care of" said Hugo Raineri, councilman.

"This place is in a dying stage, you know that," Martin said later. "I see a lot of places, every place but this, building all the time. And we don't have hardly a street to walk on, but our taxes went up 'I percent." "Truck farming brought in a good deal of the economy," said Rashley. "But truck farming is just about a thing of the past. Now its sugar cane and it doesn't bring in nearly the amount of people."

"I'm going to disagree with you," said Martin. "Belle Glade, right down the road here, is building all the time, every day."

It's up to us to find a way to get these people to pay their share. They (the council) did all they can do. They re taking a lot of "fif-reff from us and I'm sure glad. I'm not up there."

The budget, which was passed without any dissenting votes, provides for a total of \$1,339,136.14 in expenditures and revenues.

About \$20,000 was budgeted for a half year's salaries for a city meanager, should the city decide to adopt the city manager form of government.

Then 8242.18, or 74.b percent.

The budget passed by the Pahokee City Council Monday, September 28, is about 14.5 per cent higher than the one the city operated on last year.

Property taxes increased an average of 65 per cent.

Why the discrepency? Why have property taxes gone up more rapidly than the budget, on a percentage basis?

Property taxes make up only 20.49 per cent of the budget.

The rest of the revenue is generated by a variety of the gene

tes, alcohol and transportation textee, and gargage collection fees. Some of these taxes hit every resident more equitably than others. The garbage fees would affect all residents. If it were increased by \$1.50, council membler suggested that a mill could be knocked off the property tax rate.

When this was suggested at the public hearing immediately prior to adoption of the budget, it met luke warm support from those in attendance, and never reached the status of an official motion.

The property tax is hitting the property owners hard. It may be inequitable, but in many respects, the property owners have only themselves to blame. They voted in TRIM a year ago. TRIM forced 100 per cent valuation of their property, and at the same time decreased the tax base in their community.

Even in defeat, a coach may find something worth smiling about.

The Christian Day Crusaders may have lost to St. Edwards 6-12 in double overtime, but they may also have found themselves a diamond in the rough in the form of Tipo Paez.

Paez, a ninth grader making his first appearance at quarter back, has probably earned himself the starting spot at that position with the team.

"He did exceptionally well," said coach Woody Salvatore.

"He did exceptionally well," sale coach most Salvatore. Pacz, who started the game, completed five passes in 18 attempts, and connected with receiver Robert-Echols for his "first ever" touchdown pass.

The Crusaders also got a good game from James Barmwell, who played defense and fullback. At fullback, Barnwell moved the ball for an average of 3.4 yards per carry. He also made 14 tackles while playing defense.

The game was tied 0-0 at the end of regulation play.

In the first overtime, Paez hit Echols for the first score

of the game.

But soon afterwards, St.Edwards had moved to
within five yards of the goal and had a first down.

The Crusader defensive line, strong all afternoon,
held for three downs as St. Edwards tried to drive up

the middle.

On the fourth and last attempt, St. Edwards moved the ball to the outside and scored.

In the second overtime, St. Edwards succeeded in scoring the game winning TD in a duplication of their first scoring drive.

The Crusaders will be working on their offense and turnovers mainly in preparation for this week's game against. Gold Coast Christian.

MacDonald leads Raiders over Jupiter

The Jupiter High Warriors came to Gladès Central last week, and ran into trouble - by the name of Raymondo MacDonald.

The senior wide receiver connected with quarterback Jacob Rhames three times for 96 total yards, scoring two of the five Raider touchdowns.

The Raiders won the game 32-0, and now possess a record of 2-1. They have outscored their opponents of to 11 the first three games of the season, gained while Jupiter picked up only 78 passing yards.

"I'm not completely satisfied, but pretty satisfied (with Rhames)," said McCoy. "Sometimes he doesn't release the ball soon enough. Those are things we have to improve. We can't stay at the same level. We have to get better. It's the competition) going to get tougher from here on out. Each week it will get a little tougher."

risen \$242.13, or 74.0 percent.

The budget passed by the Pahokee City Council Monday, September 28, is about 14.5 per cent higher than the one the city operated on last year.

Property taxes increased an average of 65 per cent.

Why the discrepency? Why have property taxes gone up more rapidly than the budget, on a percentage basis?

Property taxes make up only 20.49 per cent of the budget.

The rest of the revenue is generated by a variety of other taxes, including taxes on utility

franchises; licenses for professionals, trailers and taxis; cigarettes, alcohol and transportation taxes; and gurgage collection fees. Some of these taxes hit every resident more equitably than others: The garbage fees would affect all residents. If it were increased by \$1.50, council members' suggested that a mil could be knöcked off the property tax rate.

could be knocked on the property tax rate. When this was suggested at the public hearing immediately prior to adoption of the budget, it met luke warm support from those in attendance, and never reached the status of an official motion.

The property tax is hitting th., property owners hard. It may be inequitable, but in many respects, the property owners have only themselves to blame. They voted 100 per cent valuation of their property, and at the same time decreased the tax base in theorem. The transfer of the property owners will have in paying his or her taxes.

With the tax base decreased, those still on the rolls have to make up the difference created by inflation and a depleted tax base.
